I am a resident of Chicago, Illinois and a subscriber to XM Satellite Radio. Not only do I benefit from listening to XM Satellite Radio and its traffic and weather channels, it is MY RIGHT to receive this information. I pay for these services and it is not up to the National Association of Broadcasters to dictate what I am permitted to hear. Standard radio is a poor mix of repetitive, sponser driven garbage. I respectfully urge the FCC to reject the NAB's petition 04-160 and to support XM's ability to provide the kind of programming that I demand and deserve.
